Stage 3 – Learning Plan

<p>Learning Activities:</p>

**Augusta Canal National Heritage Area
South Carolina Grade 3 Social Studies Program Lesson Plans**

Pre-Visit Classroom Activities

1.) Easy Economics: Defining Productive Resources

Materials: Student Worksheet 2-3 A

Vocabulary

Productive Resources - The natural, human and capital resources that are used to produce goods and services.

Natural Resources – Things found in the earth such as water, oil, plants, animals and sunlight.

Human Resources – People who work such as teachers, doctors, construction workers, sales clerks and truck drivers.

Capital Resources – Tools, equipment and buildings that are used over and over again to produce things such as trucks, computers, shovels, boats, barrels and looms.

Entrepreneur – An individual who takes risks and organizes the factors of production to generate a product and therefore hopefully profit.

Procedure: Introduce new words. Have students write vocabulary definitions in Worksheet 2-3 A. Ask students to predict what type of productive resources they may see on their trip to the Augusta Canal.

2.) Interdependence on the Augusta Canal

Materials: Student Worksheet 2-3 B

Procedure: Explain how people do different types of jobs and depend on one-another for goods and services. Using the diagram on Worksheet B, point out the farmers would grow products like cotton, wheat and corn. The raw materials would be transported on the canal to the mills and factories. Mills and factories would use the water power to run machines and make the raw materials into products. Citizens would purchase the goods made in the factories and mills. Students make add illustrations and color farmers, mills, factories and citizens to complete Worksheet B.

On-Site Activities

3.) Who Did It?

Materials: Worksheet 2-3 C

Procedure: In the Discovery Center students read the signs and panels to match the actions to the individuals listed.

4.) Many Kinds of Jobs

Materials: Worksheet 2-3 D

Procedure: Have students list all the different jobs of people they learn about during their boat ride and tour of the Discovery Center. Determine who found the most jobs. Have the students participate in a discussion of the skills necessary for each job. (surveyors, engineers – math skills; planners/politicians – leadership and reading/writing skills; canal diggers – physical strength; factory workers – sweeping, doffing, spinning, running other machines; entrepreneurs – math, reading and writing skills; bankers – math skills; boatmen – physical strength, piloting skills, following direction; builders – math/reading/carpentry and masonry skills, etc.)

**Augusta Canal National Heritage Area
South Carolina Grade 3 Social Studies Program Lesson Plans**

5.) Canal Boat Ride - The Canal's Economic Impact on Augusta and Surrounding Areas

Post-Visit Classroom Activities

6.) Who Depended on the Canal?

Materials: Worksheet 2-3 E

Procedure: Have the students identify the various groups of people that depended on the Augusta Canal in the 1800s. (farmers, field workers, Petersburg Boatmen, traders, merchants, factory and mill entrepreneurs, factory and mill workers, citizens of Augusta, people beyond the local area that use the products made in the mills and factories, other)

7.) Productive Resources in the Textile Industry

Materials: Activity Worksheet 2-3 F

Procedure: Students review the concept and classification of productive resources. With partners or in small groups, students brainstorm the kinds of productive resources that are part of the textile industry and list in the graphic organizer.

8.) Cotton Shirts Graphing Activity

Procedure: Ask students to wear cotton shirts to school on day close to the visit to The Augusta Canal Discovery Center. Check the shirt labels to determine from which country each shirt was produced. Have students organize the data into a table and bar graph.

Suggested Questions: Where does cotton come from? Why do our shirts come from places other than the United States? What productive resources were used to make our shirts?
